

RAILTEC ENGINEERING

A trading name of Marwood Group Ltd

About Railtec Engineering

Railtec is a UK based manufacturer and can trace its beginnings back to 1898 with the formation of Firth Bros.

- Light Railway Rolling Stock and Equipment
- Heavy Duty Bogies
- Contractors Plant Steel Fabrications
- Bespoke Engineering
- Design & Build
- Shot Blasting & Finishing
- Fabrication
- Refurbishment

Based in Mapplewell near Barnsley, our purpose built premises comprises of 1 ¼ acres of open storage but more importantly 1240 sq meter of covered fabrication and manufacturing facilities offering a full bespoke build, repair and refurbishment option to customers owned equipment. Railtec specialises in the manufacture of Workshop and Shot Blast Transfer Bogies, plus various other types of equipment for all manner of Rail- and Non Rail-based services.

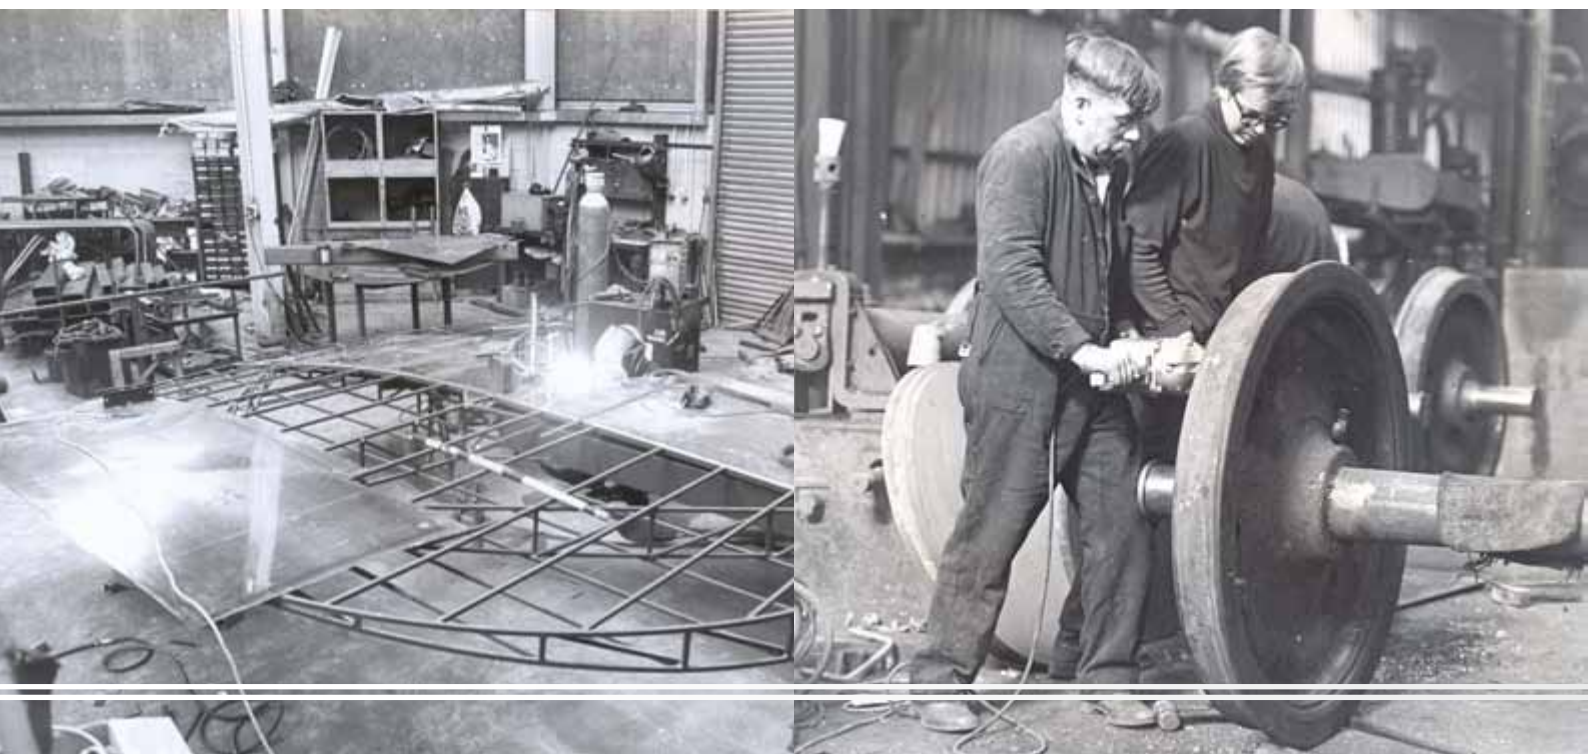

Railtec specialise also in the manufacture of bespoke one-off and small batch fabrications for Construction, Engineering and many other light and heavy industries.

Our small team of experienced engineers are dedicated to provide a fast, efficient and high-quality service to an ever-growing customer base.

We pride ourselves in being able to give a fast and reliable turnaround together with high standards of production and in-house quality control.

At the Railtec workshop we are capable of undertaking general engineering fabrications of up to 10 tonnes in any one piece, backed up by the machines in our capacity list. Here we can construct products to specific detail from design drawings or CAD.

Installation of our products takes place on site with the minimum disruption to the client. Our wealth of experience means we can handle a multitude of different types of installations, big or small, and we will ensure that these are always fitted and installed in accordance with safety legislation.

Capabilities/Capacities

We can provide maintenance, repair and modifications for farm or construction plant machinery, including:

- Loaders/Tele-Handlers
- Combine Harvesters
- Feeders
- Trailers
- Spreaders
- Digger/Loader buckets
- Steel fencing
- Gates
- Buildings, (i.e barns)

Even if it's not listed above, give us a call. We can even provide specialist modifications for your equipment if you need a customised solution.
